# Don't Pay

# High Cable Bills!

## Put an End to Monthly Cable Bills!

Are your cable bills getting more and more costly? Do you have trouble finding the channels you *want* to watch, especially when traveling? Are you seeking a low cost entertainment option for your guest house? If you are looking for a solution, a TV Box is the answer! Boasting a large selection of up to date Blockbuster movies, as well as a number of the most popular TV shows, a TV Box is an economical solution to an increasingly expensive problem. The box features Live TV from around the world (many countries available) as well as anime, movies, music, fitness applications for at home workouts, a built in VPN, anti-virus software, remote access and affordable updates. Interested?

## Check out the Products

### *Amazon Firestick -*

Created by Amazon, the Firestick is easily portable and requires only a TV set with an HDMI port.

The Firestick offers 1080P HD, 5GB of storage, access to all of Amazon's videos (Prime Members) and Alexa Voice Control. The 4K version offers 8GB of storage.

Unfortunately it will not offer all applications or remote access. This means updates must be done in person. Google voice is also not available (as it is an Amazon product, but does work with Alexa).

Price - 90 USD Major Updates - 10 USD

### *MeCool M8s Pro L -*

The MeCool M8s Pro L is the best value for the money. It operates smoother than the other two boxes, boasts 3GB RAM and a 32GB hard-drive. You can expect clear 4K pictures/movies, the ability to play games as well as smooth streaming. The MeCool has Bluetooth capability allowing you to connect other Bluetooth peripherals like sound-bars and speaker systems, or headphones (for those quiet nights). Best of all, remote access allows for automatic updates from remote locations.

Price - 121 USD Updates - Free of Charge

### *A95x Pro -*

The A95x is a step up from the Firestick and is designed for home use while its small size makes it portable.

This device displays 4K videos, has an intuitive Launcher, and Remote Control access for minor updates. The box also uses Google voice technology and offers 16GB of storage with 2GB of RAM.

Price - 102 USD Major Updates - 6.50 USD

(Free minor updates thru remote control)
